EDUCATION

Institute of Engineering and Technology, Lucknow

Bachelor of Technology – Computer Science & Engineering | **CGPA: 8.0/10**

Oct 2023 – Present

Lucknow, Uttar Pradesh

EXPERIENCE

NOVO Technologies 

June 2026 – Present

AI Automation Engineer

Noida, Uttar Pradesh

- Architected and developed an **AI-powered full-stack BOQ Automation Platform** using **Python, FastAPI, React, TypeScript, PostgreSQL, Docker, and REST APIs**, reducing BOQ generation time from **2–3 hours to under 15 minutes** while eliminating **90%+ manual effort** through intelligent workflow automation.
- Built scalable **document intelligence and business automation pipelines** for **PDF/Excel processing, data extraction, validation, approval workflows, RBAC, audit logging, and transaction-safe database operations**, improving quotation accuracy, operational efficiency, and enterprise workflow management.

Co-Grad 

Jan 2026 – Feb 2026

AI / STEM Trainer

Pratapgarh, Uttar Pradesh

- Mentored **400+ students** in **Arduino, IoT, Robotics, and 3D Printing** through hands-on STEM workshops; taught **embedded systems, microcontrollers, and sensor integration**, enabling **15+ working projects** with **90%+ engagement** and **70%+ project completion rate**.
- Led **15+ innovation projects** from ideation to functional prototypes using **Design Thinking and Agile iterative prototyping**; organized **10+ technical workshops** driving **100+ student participation** and strengthening **SDLC, system design, and applied engineering skills**.

TEDx IET Lucknow 

Oct 2025 – June 2026

Operations Head

Lucknow, Uttar Pradesh

- Led end-to-end operations for TEDx conferences, coordinating **30+ team members** and onboarding **10+ speakers**; managed vendors, logistics, budgeting, and scheduling for **300+ attendees**, achieving **100% on-time execution, 95%+ audience satisfaction**, and zero critical operational issues.

PROJECTS

RiskLens – AI Compliance & Risk Intelligence Platform 

March 2026

- Engineered a production-ready **RAG-powered Compliance & Risk Intelligence Platform** with automated batch PDF ingestion, **FAISS** vector indexing (all-MiniLM-L6-v2 embeddings), and LLM-driven semantic search via **Groq-hosted LLaMA-3.3-70B**; processed **20+ enterprise documents (~200 pages)** at **~2s** average query latency.
- Reduced regulatory compliance review time by **95%** (45 mins → <2 mins) vs. manual analysis; delivered **4× faster retrieval** over keyword search and **9-endpoint FastAPI** backend with **React/Vite** dashboard, cross-document Q&A, risk scoring, and **ReportLab** PDF report generation.

HisaabWala – Voice-First AI Ledger 

April 2026

- Built voice-to-ledger system using **FastAPI, Groq Whisper / LLaMA-3.3-70B**, and **Telegram Bot API**; achieved **90%+ transcription accuracy** on Hindi voice inputs with multi-transaction NLP extraction and entity resolution.
- Implemented full transaction lifecycle (**2-minute auto-confirm**, duplicate detection, asyncio scheduling, audit trail) via **Supabase PostgreSQL**; deployed on **Railway** with zero cross-merchant data leakage, enabling NBFC credit partnerships for **63M+ Indian SMBs**.

TECHNICAL SKILLS

Languages: Python, JavaScript, TypeScript, C, C++, HTML, CSS

AI/ML & Frameworks: Generative AI, LLMs, RAG, Prompt Engineering, NLP, LangChain, Hugging Face Transformers, YOLOv8, PyTorch, OpenCV, EasyOCR, React, Vite

Backend, Databases & DevOps: FastAPI, REST APIs, PostgreSQL, Docker, Vector Databases (FAISS, Pinecone), Supabase, Streamlit, NumPy, Pandas, Git, GitHub, Railway

CERTIFICATIONS

- India AI Impact Buildathon 2026 – HCL & GUVI
- Deloitte Australia – Technology Job Simulation
- Tata GenAI Powered Data Analytics Job Simulation – Forage
- Adobe India Hackathon – Adobe
