EDUCATION

Institute of Engineering and Technology, Lucknow

Bachelor of Technology - CGPA - 8.0/10

Oct 2023 – Present

Lucknow, Uttar Pradesh

EXPERIENCE

Co-Grad 

Jan 2026 – Feb 2026

AI / Stem Trainer

Pratapgarh, Uttar Pradesh

- Mentored 400+ students in **Arduino, IoT, Robotics, and 3D Printing** through hands-on STEM workshops; taught **embedded systems, microcontrollers, and sensor integration**, enabling **15+ working projects**, achieving **90%+ engagement rate** and **70%+ successful project completion**.
- Led **15+ innovation projects** from ideation to functional prototypes using **Design Thinking and iterative prototyping**; organized **10+ technical workshops**, driving **100+ student participation** and strengthening **PDLC, system design, and applied engineering skills**.

TEDx IET Lucknow 

Oct 2025 – Present

Operations Head

Lucknow, Uttar Pradesh

- Led end-to-end operations for TEDx conferences, coordinating **30+ team members** and onboarding **10+ speakers**; managed vendors, logistics, budgeting, and scheduling for **300+ attendees**, achieving **100% on-time execution, 95%+ audience satisfaction**, and zero critical operational issues.

E-Cell IET Lucknow: 

Nov 2024 – Present

Design Lead

Lucknow, Uttar Pradesh

- Led visual branding and digital media strategy for **10+ entrepreneurship programs and startup events**, managing a **10+ member design team** to deliver **50+ creatives and campaigns**; boosted **community outreach by 2x**, increased **participant acquisition by 40%+**, and improved **engagement rates by 60%+**.

PROJECTS

AI Compliance & Risk Intelligence Platform 

March 2026

- Built a full-stack AI Compliance & Risk Intelligence Platform using React, FastAPI, LLMs, LangChain, and RAG, implementing document ingestion, vector embeddings, and semantic search for enterprise regulatory documents.
- Developed AI compliance analysis pipelines for risk detection, compliance scoring, and automated regulatory report generation from multi-page policy and regulatory PDFs.

Medical RAG Chatbot 

Feb 2026

- Developed a Generative AI Medical Chatbot using Retrieval-Augmented Generation (RAG), LangChain, Groq LLM API, and Pinecone vector database, implementing PDF document ingestion, text chunking, embedding generation, vector indexing, semantic search, and context-aware medical question answering, with an interactive Streamlit-based user interface for intelligent healthcare document analysis.

Number Plate Recognition 

March 2026

- Developed an Automatic Number Plate Recognition (ANPR) system using YOLOv8 for license plate detection, EasyOCR for optical character recognition, and OpenCV for image preprocessing, implementing image filtering, adaptive thresholding, regex-based plate validation, character correction mapping, and temporal smoothing to generate accurate and structured vehicle plate detection outputs.

TECHNICAL SKILLS

Languages: Python, C, C++, HTML, CSS

AI/ML and Frameworks: Generative AI, LLMs, Retrieval-Augmented Generation (RAG), LangChain, Hugging Face Transformers, YOLOv8, PyTorch, OpenCV, EasyOCR

Backend, Databases and Tools: FastAPI, REST APIs, Vector Databases (Pinecone), Semantic Search, Streamlit, NumPy, Pandas, Git, GitHub

Certifications

- India AI Impact Buildathon 2026 – HCL & GUVI
- Unstop Creative Hackathon – Strategy Track
- Tata GenAI Powered Data Analytics Job Simulation – Forage
- Adobe India Hackathon – Adobe
